Tools & Platforms: Git, GitHub, Vercel  
Others: REST APIs, Responsive Design

## EDUCATION

III BE (EP) (TUM)

## ABOUT ME

- I'm very aspiring in Web Development and now doing my self projects with MERN stack. I have strong understanding in core concept of JavaScript, React and TypeScript. I can effectively use tools such as Redux, RTK Query, ReactQuery, CSS framework like Bootstrap, Tailwind and other UI component libraries, for implementing client side of web application. And I have proper knowledge on NodeJS and framework like ExpressJS, so I believe I can conveniently with backend developer. But I have not much experience in real world projects so I only have fixing my own errors, bugs and difficulties in my projects. I wanna face with real world projects, difficulties and overcome all difficulties in my long life journey.

## Project Experience

### E-Commerce Website

- Built a minimal full-stack e-commerce platform using the MERN stack and TypeScript
- Implemented dynamic pagination, cart management, wishlist, rating review, profile

### Other minimal client side projects

- Simple TodoList App
- Zodiac App
- Myanmar Months App
- MinTheinKha App
